

**PROMOTING A CLEAN & SECURE ENERGY FUTURE FOR IDAHO**  
 Idaho's natural beauty, clean water and unique way of life are a legacy we need to protect. We have the ability and ingenuity to meet our energy needs with faster, clearer, safer and cheaper solutions now. Through conservation, energy efficiency and development of local renewable energy sources that are abundant in Idaho we will provide our State with green jobs, affordable energy and a clean energy future. Together we can maintain our pristine environment and quality of life and pass on a better, safer future for our children.

## COLLABORATIVE INITIATIVES

- \* Idaho Energy Plan Petition Drive
- \* Letter to Gov. Otter requesting State demonstrate preparedness for energy stimulus funds
- \* Assisted Office of Energy Resources to develop an Idaho Energy Vendor guide

### Idaho Energy Efficiency Agreement for Cities and Counties

A local government pledge to:

1. Reduce energy use in city/county buildings measured in terms of targeted percentages or through reductions in a city/county's energy use index
2. Increasing efficiency throughout the community, including in residences and private businesses, through the use of incentives and public education
3. Committing to "Smart Growth" policies in all further city/county development

### Legislative Action

The Idaho Energy Collaborative supports the implementation of the 2007 Idaho Energy Plan. We believe Policies that promote energy efficiency and renewable energy development will create economic growth and job growth in Idaho. Specific legislation we are interested in during the 2010 session include:

- \* Schools as energy producers
- \* Consumer Advocate Intervener Funding
- \* Lending tools for residential and small business Solar/Renewable Energy

# IDAHO ENERGY COLLABORATIVE

WORKING TO SECURE IDAHO'S ENERGY FUTURE THROUGH THE PROMOTION OF ENERGY EFFICIENCY, CONSERVATION AND RENEWABLE ENERGY DEVELOPMENT.

*MAKING ENERGY MAKE CENTS*

- ### 2009 Guest Speakers
- \* Paul Kjellander, Office of Energy Resources
  - \* Jim Kempton, PUC
  - \* Jim Yost NWPCC
  - \* Wendy Jaquet, Idaho Legislature
  - \* Lane Packwood, Idaho Department of Commerce
  - \* Jon Watts, Veritas Consultants
  - \* Doctor Sian Mooney, Department of Economics, BSU
